### **DETAILED ACTION**

1. Receipt is acknowledged of the Amendment received on 21 July 2003 and the IDS received on 13 August 2003.

#### ***Allowable Subject Matter***

2. Claims 12-17 and 31-38 are allowed.
3. The following is an examiner's statement of reasons for allowance: The prior art of record fails to teach an electronic book reader system with a book holder that holds the book comprising a plurality of pages, where electronic equivalent representations of the text and audio of the book are created and stored in a first memory space and downloading a duplicate of the electronic equivalents from the first memory space into a second electronic memory space housed within the book holder of the book. The prior art of Ohara et al. (US 5,739,814) teaches an electronic book system where electronic equivalents are stored on a ROM (first memory space), but that a duplicate is downloaded to the computer, not the book holder. The prior art of Huffman et al. (US 5,697,793) teaches an electronic book system with no pages. It would not have been obvious to the examiner to combine and modify the teachings of the prior art to teach the currently claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
